

# 食物事故報表 Food Incident Post

<b>Heading</b>	Director of the Veterinary and, Ministry of Agriculture, Anti-Epizootic Department, PYONGYANG, Korea (Dem. People's Rep.) notified the World Organization for Animal Health (OIE) a confirmed Highly Pathogenic Notifiable Avian Influenza (HPNAI) H5N1 outbreak started on 19.04.2013.
<b>The incident</b>	A HPNAI H5N1 outbreak was reported in Tudan Duck Factory, P'YONGYANG-SI, Korea (Dem. People's Rep.). Ducks in one of the 20 cages showed clinical signs on 19 April 2013 but recovered 3-4 days later. As mortality increased, samples were sent to the Central Veterinary Station on 2 May 2013. In total, one adult cage, 12 fattening cages and 7 duckling cages were infected. More than 2,000 adult ducks, 42,000 fattening ducks and 120,000 ducklings younger than 20 days were dead or killed.
