Position of CFS	<ul style="list-style-type: none"> • According to CFIA, the affected products have been distributed in certain regions of Canada. Information on product distribution outside Canada is not available from CFIA website. • The local trade has been alerted. • Acquisition of the products through online purchase or international travel cannot be excluded. • <i>Salmonella</i> infection may cause fever and gastrointestinal upset such as abdominal pain and diarrhoea. People with lowered immunity such as infants and the elderly could present with more severe and even life-threatening infection. • Consumers should discard the product and not consume it. • CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary
