Position of CFS	<ul style="list-style-type: none"> • According to AVA, the product is sold in Singapore and the recall by Mamil Gold was initiated as a precautionary measure. Information on product distribution outside Singapore is not available from AVA website. • The local trade has been alerted. • Acquisition of the product through online purchase or international travel cannot be excluded. • <i>Clostridium botulinum</i> may pose health risk to exposed individuals, in particular infants under one-year-old and immunocompromised adults, those using antimicrobials, or those with bowel abnormalities. Patients with intestinal botulism may present with constipation and poor feeding. • Consumers should discard the product and not consume it. • CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary
