

# 食物事故報表 Food Incident Post

<b>Heading</b>	The U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) – Recall of certain beef, veal and Bison products by Adams Farm Slaughterhouse in the U.S. due to possible contamination with <i>E. coli</i> O151:H7.
<b>The incident</b>	<p>The FSIS issued a notice regarding a recall of certain beef, veal and Bison products by Adams Farm Slaughterhouse in the U.S. due to possible contamination with <i>E. coli</i> O151:H7.</p> <p>Details of products being recalled are listed in the FSIS website.</p>
<b>Source</b>	<p>FSIS website</p> <p><a href="http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2016/recall-087-2016-release">http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2016/recall-087-2016-release</a></p>
<b>Position of CFS</b>	<ul style="list-style-type: none"> <li>Information on product distribution outside the U.S. is not available from the FSIS website.</li> <li>CFS is investigating whether the affected batches have been imported to Hong Kong and is contacting the U.S. authority for further information.</li> <li>Acquisition of the products through online purchase or international travel cannot be excluded.</li> <li>People contract <i>E. coli</i>, which is a gastro-intestinal infection, through consumption of contaminated water or undercooked and contaminated foods. Intestinal bleeding and serious complications such as hemolytic uraemic syndrome (HUS) may also develop in some people. Moreover, due to poor personal hygiene, person-to-person transmission of this pathogen is possible through oral-faecal route. <i>E. coli</i> cannot survive under high temperature and can be killed by thorough cooking.</li> <li>Consumers should discard the products and not consume them.</li> <li>CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.</li> </ul>
