<b>Heading</b>	The U.K. Food Standards Agency (FSA) – Recall of some batches of Doritos Lightly Salted Corn Chips in the U.K. by Pepsico due to undeclared soya and wheat (gluten).
<b>The incident</b>	<p>The FSA issued a notice regarding a recall of some batches of Doritos Lightly Salted Corn Chips in the U.K. by Pepsico due to undeclared soya and wheat (gluten).</p> <p><b>Recalled products</b></p> <ul style="list-style-type: none"> <li>● Product: Doritos Lightly Salted Corn Chips</li> <li>● Pack size: 200g</li> <li>● "Best Before" date: 08/04/2017</li> <li>● Batch codes: GBC 209 353D (time code affected between 02:08 – 02:38)</li> <li>● No other Pepsico products are known to be affected.</li> </ul> <p>Details of products being recalled are listed in the FSA website.</p>
<b>Source</b>	<p>FSA website</p> <p><a href="https://www.food.gov.uk/news-updates/news/2017/15862/pepsico-recalls-doritos-lightly-salted-corn-chips-because-of-undeclared-soya-and-wheat-gluten">https://www.food.gov.uk/news-updates/news/2017/15862/pepsico-recalls-doritos-lightly-salted-corn-chips-because-of-undeclared-soya-and-wheat-gluten</a></p>
<b>Position of CFS</b>	<ul style="list-style-type: none"> <li>• Information on product distribution outside the U.K. is not available from the FSA website. CFS is investigating whether the affected batches have been imported to Hong Kong and is contacting the U.K. authority for further information. Investigation so far did not identify local sale or import of the affected products.</li> <li>• Acquisition of the products through online purchase or international travel cannot be excluded.</li> <li>• Consumers who are allergic to soya and wheat (gluten) should discard the products and not consume them.</li> <li>• CFS will remain vigilant and monitor for any new development</li> </ul>

	<p>and take appropriate actions when necessary.</p> <ul style="list-style-type: none"> <li>Investigation by CFS is ongoing.</li> <li>People who are allergic to soya and wheat (gluten) may have immunologic response like vomiting, diarrhoea and rash upon consumption of food containing this allergen. In severe cases, anaphylactic shock may even develop. As for other members of the public, generally speaking, they would not be subject to such reactions when the food in question is consumed.</li> </ul>
