

Heading

The Ministère des Solidarités et de la Santé (The Ministry of Solidarity and Health) – An expanded recall of different infant nutrition products manufactured since February 15, 2017 on the site of Lactalis Nutrition Santé (LNS) de Craon (53) in France due to possible contamination with Salmonella. (Updated)

The incident

The Ministry of Solidarity and Health issued a notice regarding an extended recall of different infant nutrition products manufactured since February 15, 2017 on the site of Lactalis Nutrition Santé (LNS) de Craon (53) in France due to possible contamination with Salmonella. The authority also imposed a suspension of marketing and exports of the products concerned.

Products details:

(please refer to the appendix)

Details of products being recalled are listed in the Ministry of Solidarity and Health website.

Commission

Position of CFS

- Information on product distribution outside France is not available from the Ministry of Solidarity and Health website. CFS is investigating whether the affected products have been imported to Hong Kong and is contacting the relevant authority for further information. Preliminary investigation so far identified one importer, Jumbo Smart Development Limited, had imported some affected products and distributed to local market. The importer concerned had stopped selling, removed from shelves and initiated product recall of the affected products.
- Acquisition of the products through online purchase or international travel cannot be excluded. Please contact your supplier(s) for detail and advice.
- Consumers should discard the products and not consume them.
- CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.
- Investigation by CFS is ongoing.
- Salmonella infection may cause fever and gastrointestinal upset such as abdominal pain and diarrhea. People with lowered immunity such as infants and the elderly could present with more severe and even life-threatening infection.
