食物批次清關程序

Consignment clearance procedure

- ▶ 每批貨品的清關過程需時多久，則取決於多項因素，包括相關文件或資料是否清晰齊備、進口批次數量多少，以及當時是否有多批貨品同一時間抵達而延長輪候間等。現時機場三個貨運站均配備冷藏設施供進口商使用，在等待食安人員安排進行檢測期間，可按其需要將食品暫存於這些冷藏設施。
- ▶ The duration of clearance process for each consignment depends on multiple factors, such as clarity and completeness of the related documents or information, the number of consignments, and whether many consignments arrive at the same time, leading to long queues, among others. Refrigeration facilities are provided at all three cargo terminals at Hong Kong International Airport for importers to store food and the trade can use the refrigeration facilities for storage of food while waiting for inspection when needed.
