

Dear E-news recipients,

News on the Centre for Food Safety (CFS) online:

(1) Food Safety Day 2026

CFS kicked off Food Safety Day 2026 promotional campaign on 7th June. With "handwashing" as the core theme, a series of thematic short videos, social media posts, and posters, will be launched to highlight the importance of maintaining hand hygiene in preventing foodborne diseases, and to echo World Food Safety Day of the Food and Agriculture Organization of the United Nations and the World Health Organization.

(3) "Safe Food for All: To Understand Five Keys to Food Safety - Food Safety Advice at Home" Public Talk and Workshop 2026

CFS is organising the Public Talk and Workshop on "Safe Food for All: To Understand Five Keys to Food Safety - Food Safety Advice at Home" on 14.7.2026, 31.7.2026 and 18.9.2026. The objective of the program is to promote to the public how to apply the "Five Keys to Food Safety" in daily life. Following the "Five Keys to Food Safety" can prevent most food-borne diseases. Information about nutrition labelling and food allergy will also be introduced.

(4) CFS announces results of seasonal food surveillance on rice dumplings

On 12th June, CFS announced the results of a recently completed seasonal food surveillance project on rice dumplings. Of the 160 samples tested, one prepackaged rice dumpling sample was found with a total fat content inconsistent with the declared value on its nutrition label that was announced earlier. The remaining samples passed the tests. Rice dumplings are a popular festive food for the Tuen Ng Festival. The project aims to provide information on safe consumption of rice dumplings to consumers and the trade in a timely manner.
