The Food and Drugs (Composition and Labelling) Regulations (the Regulations) require all applicable prepackaged foods to list out the ingredients, the content of energy plus seven core nutrients, namely, carbohydrates, protein, total fat, saturated fat, trans fat, sodium and sugars (commonly known as “1 + 7”), and regulate any associated nutrition claims. The ingredients to be listed include, among others, any of the substances specified in section 2(4E) of Schedule 3 to the Regulations which are known to cause allergy in some individuals, if present.
