Source	<p>FDA website http://www.fda.gov/Safety/Recalls/ucm529967.htm?source=govdelivery&utm_medium=email&utm_source=govdelivery</p> <p>CFIA website http://inspection.gc.ca/about-the-cfia/newsroom/food-recall-warnings/complete-listing/2016-11-19/eng/1479617263429/1479617266581</p>
Position of CFS	<ul style="list-style-type: none"> Information on product distribution outside the Canada/ US is not available from the FDA/CFIA website. CFS is investigating whether the affected batches have been imported to Hong Kong and is contacting the U.S. authority for further information. Preliminary investigation did not identify local sale or import of the affected products. Acquisition of the products through online purchase or international travel cannot be excluded. Consumers should discard the products and not consume them. CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary. Investigation by CFS is ongoing.

	<ul style="list-style-type: none">Listeriosis is usually caused by eating food contaminated with <i>Listeria</i> which can be easily destroyed by cooking but can survive and multiply at refrigerator temperatures. Severe complications may occur, such as septicaemia, meningitis or even death in newborns, elderly and those with weaker immune systems; and miscarriages during pregnancy.
