| Position of CFS | <ul style="list-style-type: none"> Information on product distribution outside Germany is not available from the captioned websites. CFS is contacting the relevant authority for further information. According to CFS's record, the affected batch of product had not been imported to Hong Kong. According to the available information, the detected level of fipronil reported did not exceed the maximum residue limit in local legislation. CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary. Investigation by CFS is ongoing. |
