Brand	Product	Size	UPC	Codes							
One Tang	Bitter Apricot Kernel	180 g	6 28546 00724 8	2023.JN.20							
<b>Source</b>	Website of the CFIA <a href="https://recalls-rappels.canada.ca/en/alert-recall/consumption-one-tang-brand-bitter-apricot-kernel-may-cause-cyanide-poisoning">https://recalls-rappels.canada.ca/en/alert-recall/consumption-one-tang-brand-bitter-apricot-kernel-may-cause-cyanide-poisoning</a>										
<b>Position of CFS</b>	<ul style="list-style-type: none"> <li>Members of the public are advised to soak bitter apricot seeds in water and then cook them thoroughly in boiling water before consumption and when using them to prepare drinks. Cooking bitter apricot seeds thoroughly in boiling water can release the toxic hydrogen cyanide. In this way, the level of the toxin can be reduced making them safe for consumption.</li> <li>Acquisition of the products through online purchase or international travel cannot be excluded.</li> <li>CFS will remain vigilant and monitor for any new development</li> </ul>
