<b>Position of CFS</b>	<ul style="list-style-type: none"> <li>Information on product distribution outside France is not available from the website of the Rappel Conso.</li> <li>Acquisition of the products through online purchase or international travel cannot be excluded.</li> <li>Diarrhetic shellfish toxins (DSTs) are naturally occurring marine toxins produced by algae. Shellfish are filter feeders. Especially during or shortly after algal blooms, shellfish may accumulate DSTs reaching a level that can make people sick. The main</li> </ul>										

# 食物事故報表 Food Incident Post

	<p>symptoms of DSP are diarrhoea, nausea, vomiting and abdominal pain, which usually occur between 30 minutes and a few hours after consuming contaminated shellfish. Affected persons usually recover within 2-3 days.</p> <ul style="list-style-type: none"><li>• Consumers should discard the product and not consume it.</li><li>• CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.</li><li>• Investigation by CFS is ongoing.</li></ul>
