	<ul style="list-style-type: none"><li>Consumers should discard the product and not consume it.</li><li>CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.</li><li>Investigation by CFS is ongoing.</li><li><i>Bacillus cereus</i> is commonly found in the environment. Unhygienic conditions in food processing and storage may give rise to its growth. Consuming food contaminated with excessive <i>Bacillus cereus</i> or its heat-stable toxins may cause gastrointestinal upset such as vomiting and diarrhoea.</li></ul>
