Position of CFS	• The Centre for Food Safety (CFS) is investigating whether the affected product has been imported to Hong Kong and is contacting the relevant authorities for further information. Preliminary follow-up with Danone Nutricia Early Life Nutrition												

食物事故報表 Food Incident Post

	(Hong Kong) Limited, local importers and major retailers did not identify local sale or import of the affected product. • Acquisition of the product through online purchase or international travel cannot be excluded. • Consumers should discard the product and not consume it. • CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary. • Investigation by CFS is ongoing. • <i>Bacillus cereus</i> is commonly found in the environment. Unhygienic conditions in food processing and storage may give rise to its growth. Consuming food contaminated with excessive <i>Bacillus cereus</i> or its heat-stable toxins may cause gastrointestinal upset such as vomiting and diarrhoea.
