Position of CFS	<ul style="list-style-type: none"> • The Centre for Food Safety (CFS) is investigating whether the affected products have been imported to Hong Kong and is contacting the relevant authority for further information. Preliminary follow-up with Danone Nutricia Early Life Nutrition (Hong Kong) Limited, local importers and major retailers did not identify local sale or import of the affected products. • Acquisition of the products through online purchase or international travel cannot be excluded. • Consumers should discard the products and not consume them. • CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary. 									

食物事故報表 Food Incident Post

	<ul style="list-style-type: none">• Investigation by CFS is ongoing.• <i>Bacillus cereus</i> is commonly found in the environment. Unhygienic conditions in food processing and storage may give rise to its growth. Consuming food contaminated with excessive <i>Bacillus cereus</i> or its heat-stable toxins may cause gastrointestinal upset such as vomiting and diarrhoea.
