Position of CFS	<ul style="list-style-type: none"> • Information on product distribution outside Singapore is not available from the website of the SFA. The Centre for Food Safety (CFS) is contacting the relevant authority for further information. Preliminary follow-up with Wing Sang Wholesale Ltd, local importers and retailers did not identify local sale of the affected batch of the product. • Acquisition of the product through online purchase or international travel cannot be excluded. • Consumers who are allergic to sulphite should discard the product and not consume it.

食物事故報表 Food Incident Post

- CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.
- Investigation by CFS is ongoing.
- People who are allergic to sulphite may have immunologic response like vomiting, diarrhoea and rash upon consumption of food containing this allergen. In severe cases, anaphylactic shock may even develop. As for other members of the public, generally speaking, they would not be subject to such reactions when the food in question is consumed.
