

# 食物消費量調查

## Food Consumption Survey

食物環境衛生署現正進行食物消費量調查，以了解市民的膳食結構和食物消費模式，所得資料會用作食物安全風險評估。我們會向獲抽選的市民發出通知書，並派出佩戴委任證的訪問員上門訪問。所得資料絕對保密。

調查由香港中文大學負責進行

The Food and Environmental Hygiene Department has commissioned a food consumption survey to understand the composition of people's diets and their food consumption patterns. Information will be collected for risk assessment on food safety. Selected respondents will be informed by letter.

The survey is being conducted by the Chinese University of Hong Kong. Interviewers will carry identity cards, and information will be kept confidential.
